ECCO is proud to be a member of:

HOLE SAWS

MASTER COBALT® BI-METAL

This premium line of professional quality hole saws features an M3 high-speed steel cutting edge, electron beam welded to a tough steel backer. Caps stand up to abuse and punishment, yet are lighter and easier to use than those of competitors. Positive rake tooth design provides better chip clearance as teeth cut into wood, plastic or any machinable metal. The 1-1/2" cutting depth cuts easily through 2 x 4s. A separate arbor is required (please refer to index).

Features

- Backer, cutting edge and cap work together to provide faster, longer-lasting cutting action.
- Bi-metal design bonds M3 cutting edge to fatigue-resistant backer.
- Positive rake teeth clear chips better for longer life and easier cutting.
- Teeth stay sharper and make smoother cuts.

Packaging

- 1 per box
- 1 per card, 2 cards per standard pack

HOLE SAWS (cont'd)

MASTER COBALT® DEEP CUTTING BI-METAL

1-7/8" cutting depth provides extra depth for specialty cuts made by locksmiths, remodelers and general contractors alike. Easily cuts through 2 x 4s, joists and most doors in one pass with extra clearance.

Features

- Variable pitch smoothes cutting action with minimum vibration.
- M3 cutting edge for high wear resistance and longer life.

Packaging

- 1 per box

706838	AV06I/171069	\$520.00

HOLE SAWS (cont'd)

TUNGSTEN CARBIDE GRIT

The long-lasting choice for cutting holes in materials too hard or abrasive for standard bi-metal saws, or so thin they would strip bi-metal or chip carbide teeth. Ideal for cutting ceramics, fiberglass, hardwoods, cast iron, composites, etc.

Features

- Super resistance to heat, wear and abrasion with shock resistant back.
- Tungsten carbide grains are bonded to alloy backs with a gulletted, snag resistant edge.
- 1-1/2" cutting depth

Packaging

- 1 per box

C706800	MES101	140805	Ejector Spring, fits all 1/4" pilot drills	P.O.A.
C706800	ME121	141123	12" (305mm) Extension for shank of 7/16" (10.5mm) arbors for 1/2" drill chuck	P.O.A.
C706800	ME381	140409	12" (305mm) Extension for shank of 3/8" (9.5mm) arbors for 3/8" or larger drill chuck	P.O.A.
C706800	M44N01 Nut	140751	Adapts arbors with 1/2 – 20 threads to fit hole saws with 5/8 – 18 threads	P.O.A.
C706800	M44NH01	140744	Hex Adapter Nut	P.O.A.
C706800	MQC14	140386	Fast-Adapt Chuck fits 3/8" and larger chucks. Use with 1/4" shanks	P.O.A.
C706800	MQC38	140393	Fast-Adapt Chuck fits 3/8" and larger chucks. Use with 3/8" and 7/16" shanks	P.O.A.

MQC38

MQC14

Fast-Adapt™ Chuck
Morse's Fast-Adapt Quick Change Chucks allow for fast keyless insertion and removal of any 1/4", 3/8", and 7/16" hex shank power tool accessories with standard power groove. Fits 3/8" and larger chucks.

SAW BLADES

MASTER COBALT® RECIPROCATING

The best blades in the world for cutting wood and metal, including steel, stainless steel, iron, sheetmetal and pipe. Master Cobalt® technology was painstakingly developed in the Morse Technology Center. There they have tested the many variables affecting blade life and have discovered a unique combination of features that has tripled the life of standard reciprocating saw blades. These are the longest lasting recips available. They cut more smoothly, more accurately and offer greater value. They are Master Cobalt®, available exclusively from M. K. Morse.

- Master Cobalt® Reciprocating Saw Blades have conventional shanks
- A wide variety of sizes brings long life cutting action to almost every professional cutting need.
- Available in 3 different thicknesses to meet flexibility and stiffness needs for various applications.
- 8% cobalt cutting edge is electron-beam welded to high strength steel backer for greater wear resistance and longer life.
